

Tru-Foliar™

# P-K PLUS™

3-21\*-18

## GUARANTEED ANALYSIS

## BY WEIGHT

Total Nitrogen (N)	3.0%
2.1% Urea Nitrogen	
0.9% Ammoniacal Nitrogen	
Available Phosphoric Acid (P <sub>2</sub> O <sub>5</sub> )	21.0%
21.0% Total Phosphoric Acid (P <sub>2</sub> O <sub>5</sub> )*	
Soluble Potash (K <sub>2</sub> O)	18.0%

Derived from urea, ammonium sulfate, ammonium phosphate and potassium phosphite.

F 1194

- Keep out of direct sunlight during storage for extended periods.
- Store at room temperature above 40 degrees F.

## DIRECTIONS FOR USE FOLIAR APPLICATION RATES

Add **Grigg Brothers Ultraplex™** to any **Grigg Brothers** foliar application at the rate of 3 fl. oz. per 1000 sq. ft. **Ultraplex™** contains micronutrients. **Ultraplex™** is a unique formula, no additional surfactant is required.

For best results apply as a foliar spray early in the morning or late evening. Allow to dry on plants 3-6 hours before watering.

**TURF GRASSES: COOL SEASON:** As a foliar: 3 to 6 oz. of **PK Plus™** per 1000 sq. ft. mixed with the above recommended rate of **Ultraplex™**. **WARM SEASON:** As a foliar: 4 to 6 oz. of **PK Plus™** per 1000 sq. ft. mixed with the above recommended rate of **Ultraplex™**.

Repeat weekly or as needed. Mix with 1-2 gallons water per 1000 sq. ft.

Foliar fertilizer is intended as a supplement to a regular fertilization program and may not, by itself, provide all the nutrient normally required by crops or other intended plants.

Information regarding the contents and levels of metals in this product is available on the internet at <http://www.aapfco.org/metals.htm>

Phosphorous acid products are intended to be used as a supplemental fertilizer treatment.

\* Upon foliar application, the phosphite ions are taken up directly by the plant foliage and may undergo a degree of conversion to phosphate ions, or are utilized directly by plants, as phosphite ions.

\* As a soil application to annual crops, a lesser response from the initial crop, with a corresponding superior response from succeeding crops, may be observed. In addition, placement close to seeds or root zones may be injurious to crops. The effect may be aggravated by a soil pH below 6.5.

**CAUTION: KEEP OUT OF REACH OF CHILDREN !**

### Conditions of sale:

The information contained on this label is believed to be accurate and reliable. Buyer and user acknowledge and assume all liability resulting from the use of this material. Follow directions carefully. Timing, method of application, weather, crop conditions and other factors are beyond the control of the seller.
