DIRECTIONS FOR USE

FOLIAR APPLICATION RATES

Grigg Brothers Ultraplex™ contains the nonionic, organic surfactant **Intake™**. No additional surfactant is required.

IMPORTANT: For best results apply as a foliar spray early in the morning or late evening. Allow to dry on plant 3-6 hours before irrigation.

TURF GRASSES: Cool or Warm Season: Use 3 ounces of **Ultraplex** in combination with other **Grigg Brothers** products. Use 6 ounce rate when **Ultraplex** is applied without other **Grigg Brothers** products. Weekly or Bi-weekly as needed.

Foliar fertilizer is intended as a supplement to a regular fertilization program and may not, by itself, provide all the nutrient normally required by crops or other intended plants.
